Petmate Vari Kennel Ultra 6 (Large): 90x60x68 cm

Petmate's Vari Kennel® Ultra provides your pet with a safe travel and training kennel. The durable plastic shell comes with heavy-duty, easy to assemble hardware. Each kennel features an easy-open squeeze latch, metal side vents to promote healthy air flow and an interior floor moat to keep your pet dry. Convenient tie-down strap holes allow you to zip-tie the kennel together for added security during airline travel. The Vari Kennel Ultra is eco-friendly and meets most airline requirements. Be sure to check with your airline well in advance of your travels to learn about their individual requirements.

Petmate Pet Shuttle 7 (XL): 102x69x76 cm

Petmate's Pet Shuttle® is the classic way to travel safely with your pet. Great for airline and auto travel, the Pet Shuttle features an eco-friendly, heavy-duty plastic shell, durable wire doors with secure spring latches and side ventilation holes to promote healthy air flow. Be sure to check with your airline well in advance of your travels to learn about their individual requirements.

Petmate Furrari 5 (Large): 81x56x58 cm

Petmate's Furrari® Kennel is perfect for both fashion and function. The heavy-duty, thick walls contain ventilated windows to promote healthy air circulation for your pet. Each kennel features door safety bars on top and bottom for added security. Door opens from either side for convenience when positioning in the perfect location in your home or car. The Furrari Kennel is eco-friendly and meets most airline requirements. Be sure to check with your airline well in advance of your travels to learn about their individual requirements.
